SHAPE 35

THE "ROOT" BRIAR

SHAPE 42

THE  
"SHELL"  
BRIAR

SHAPE FE

The pipes illustrated on pages 2—15 are actual size

# The Dunhill Pipe

*The “Dunhill,” with its White Spot Trade Mark, has maintained its reputation for quality and fine workmanship for more than half a century. Even in these days of mass production, a Dunhill pipe remains the work of highly skilled craftsmen*

## THE “BRUYÈRE”

The “Bruyère” Pipe is carved from roots of the Tree-Heath, and, when polished, assumes a rich mahogany shade. Light, tough and close-grained, this wood is admirably suited to pipe making and yields in the hands of the expert craftsman a fine example of the pipe-maker’s art

## THE “ROOT” BRIAR

The “Root” Briar, a pipe of superb smoking quality, is shaped from a light-brown root dug in arid rocky mountain country. Growth under these adverse conditions hardens the wood and develops a peculiarly striking grain. With use, the “Root” Briar colours in a fascinating way, rivalling the rich variety of tones of the seasoned Meerschaum

## THE “SHELL” BRIAR (Regd.)

Each “Shell” Briar is unique; no two are alike except in their perfect smoking qualities. The Algerian Briar from which this pipe is made is beautifully grained, and by the application of heat and sand, the freshly carved bowl is shrunk to a mere shell, leaving the natural grain in clear and bold relief. Tough, sapless, hard and light, the finished “Shell” has every quality that makes for durability and cool smoking

## THE “TANSHELL”

The “Tanshell,” made from roots of the “Erica” family found only in Sardinia, has, like the famous “Shell” Briar a distinctive grain in bold relief. Careful seasoning and certain processes not previously employed, produce a pipe with superb qualities. The light tan bowl darkens and colours with use, adding further pleasure to smoking

*Fine specimen of Bruyère Root  
probably 150 years old*

*All Dunhill Pipes are supplied with plain or fishtail mouthpiece*

## DENTAL "RELIEF LIP"

Perfect for those  
with dentures.  
Supplied to any pipe  
ordered at an extra  
charge

## "AIRSTREAM" PIPE

This pipe is designed  
specifically to give an ex-  
ceptionally cool and dry  
smoke

"Shell" Briar only

For Pipe-Smokers' Accessories—see pages 18 and 19

## *Dunhill Pipes in Cases*

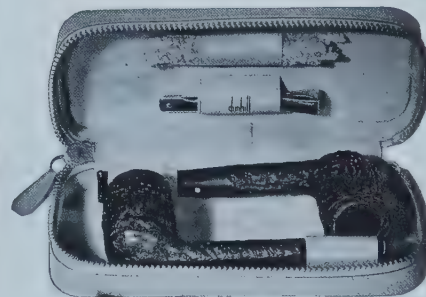

The "Bruyère" and "Root" Briar Pipes in Companion Cases are selected for their uniformity; the "Shell" Briar and "Tanshell" for their contrast of grain. A large selection of cases is always kept in stock, but any combination of pipes in a case can be made to order

The cases themselves are beautifully fashioned by skilled craftsmen to fit the individual pipes and are covered in fine leather

Seven pipes in "DAYS OF THE WEEK" case

These cases are available to hold from one to seven pipes

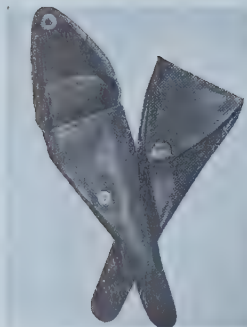

### THE "TRAVEL" CASE

Takes two pipes with cleaners and smokers' companion. Especially useful to the traveller, offering protection with minimum bulk  
Pigskin, soft leather-lined or Andorean Kid

(Without pipes, but with smokers' companion and cleaners)

*Special prices quoted for Leather Stamping and Engraved Silver Plates*

# Dunhill Pipe-Smokers' Accessories

Pipe Tobaccos are illustrated on pages 20—23

# Pipe Tobaccos

## “DUNHILL FLAKE”

A cut flake of processed Virginia. Medium strength, slow burning and very cool smoking with a pleasant aroma

## “THREE TOBACCOS” (illustrated right)

Because variety can greatly add to the pleasure of smoking, these tobaccos have been specially prepared to provide an interesting smoke for any time of the day

“Early Morning Pipe” (Mild)  
 “Apéritif” (Medium)  
 “Nightcap” (Full)

These tobaccos can be supplied separately, or as illustrated in a gift box containing a tin of each

## DUNHILL “SAMPLER”

This pack, containing three 1-ounce tins of well-known Dunhill blends is commended to the smoker who has not yet found his ideal or who feels in need of a change. It is also recommended to the beginner who is wise enough to start with the best

## “SHELL” SLICED ROLL

Slow burning, economical in use, cool smoking with a delightful mellow flavour

A descriptive booklet in full colour of many choice Dunhill Tobaccos gladly supplied on request

# Luxurious Tobaccos

There are occasions, as there are palates, which demand a more than usually choice tobacco. For such, the four tobaccos illustrated have been specially prepared

## “DURBAR”

The rare Eastern tobaccos used in this blend provide an interesting contrast to most other mixtures

It is extremely mild and cool—qualities seldom found in combination

The “ribbon-cut” leaf incorporated in the blend helps to make it slow-burning and it is a mixture that can be smoked with the utmost pleasure at any time of the day

## “YE OLDE SIGNE”

For the admirer of Virginia leaf with all its time-honoured qualities, there is probably no finer tobacco obtainable. A subtle blend of Old and Middle Belt leaf, it is a most satisfying tobacco with a natural sweetness of which the palate never tires

It is cool and fragrant and, being slow-burning, is an economical tobacco both indoors and out

## “CUBA”

A blend of fine Virginia and Oriental tobaccos with a slight admixture of cigar leaf, all cunningly blended so that none of their individual qualities may be minimised or lost

Its exceptional coolness, rich flavour and striking aroma make it a tobacco for special occasions or the perfect “after-dinner” smoke for those who prefer a pipe to a cigar

## “ROYAL YACHT”

This remarkable blend is composed of specially grown Virginia tobaccos, rich in natural sweetness

It is cool with no trace of harshness and possesses an unusually subtle and piquant aroma

Of all the tobaccos produced by Alfred Dunhill perhaps none is more famous than this unique blend

*For details of packings—see separate price list*

# Dunhill Pipe Tobaccos

With few exceptions, Pipe Tobaccos may be classified under the following headings:

1. **Mixtures**
2. **“Straight” Virginias or Virginia Blends**
3. **Prepared Flakes and Plugs (“Cut” or “ready-rubbed”)**

Mixtures usually consist of a blend of Virginia and Turkish, with Latakia as the predominating flavour and aroma. Other special tobaccos such as Havana or Louisiana Perique are sometimes introduced for flavouring purposes but these are more rare

## “MY MIXTURE”

As the ideal Pipe Tobacco is one which satisfies by its aroma, flavour, strength and coolness, the discriminating smoker will generally come to the conclusion that such perfection can only be gained by having a blend made “to the measure” of his individual palate. No two men have exactly the same taste in Pipe Tobacco, but ALFRED DUNHILL undertakes in “MY MIXTURE” to suit every palate. The expert blender, with a range of every known tobacco at his disposal, can emphasise just those qualities which appeal to each smoker

## Favourite “My Mixtures”

*The following blends have found favour among connoisseurs of Pipe Tobaccos*

“MY MIXTURE” No. 1 Extra Mild	An exceedingly light and fragrant blend of Virginia and Turkish. Not recommended when extreme coolness is desired
“MY MIXTURE” No. 27 Mild	A balanced mixture of only Virginia and Turkish leaf. Mild and cool with soft delicate flavour
“MY MIXTURE” No. 965 Medium	A superb blend of Virginia and Turkish with fine flavour and aroma and outstanding coolness. Frequently quoted as “The finest mixture ever produced”
“MY MIXTURE” No. 10 Full	A Latakia mixture of exceptional character. Very cool and slow smoking. Grand rich flavour

*The Perfect Partnership—Dunhill “My Mixture” in a Dunhill pipe*

# Dunhill Pipe Tobaccos

## “LONDON” MIXTURE

Another well-known and essentially “English” Mixture with a pleasant aroma and a flavour which—so say its admirers—never seems to cloy. It is a good example of the skilful blending of Latakia with Virginia and Turkish leaf and has won popularity in many countries

Being of medium cut and strength it is the ideal ‘general purpose’ tobacco and can also be recommended for the beginner

## “STANDARD” MIXTURE

As its name suggests, this is another well proved Mixture of Virginia and Turkish leaf which has won wide popularity

Of medium cut and with a plain, well-balanced flavour, it is an economical, slow-burning tobacco which gives lasting satisfaction the whole day through

“Standard” Mixture is available in Mild, Medium, and Full strengths, the Medium and Full being preferred by those who enjoy the maximum degree of coolness

## “THREE YEAR MATURED”

The fermentation or ageing of tobacco continues from the time it is cured until the hogsheads in which it is packed are opened by the manufacturer. In the case of this fine Virginia leaf, there is a further period in which it is kept under pressure between oak boards.

The result is a cool, soft flavour and a typical Virginia aroma which many prefer to the rather more exotic fragrance of a Mixture

*For details of packings—see separate price list*

# Dunhill Tobacco Pouches

## 1 "ALTOGETHER" POUCH

Fitted with two "Zips," this pouch holds 1½-ozs. of tobacco with a separate compartment for the pipe

Natural, black, tan, brown or blue Andorean Kid  
Peccary Hogskin

## 2 "WRAPOVER" POUCH

The "Wrapover" has the advantage of holding either large or small quantities of tobacco and still remaining flat in the pocket. Available in 1-oz. and 3-oz. sizes  
Natural, black, brown or blue Andorean Kid

Peccary Hogskin

Fine Pin-seal, black or blue

Oiled Nylon

Andorean Kid, with any Service, College or Club colours in diagonal strip

Natural, black, brown or blue soft Cape Kid

## 3 "STRAP" POUCH

This new pouch, which comfortably holds 2 ozs. of tobacco has been specifically designed to provide a large opening for ease of pipe filling. The "strap" closure gives quick access to the tobacco and automatically adjusts itself according to the contents

Natural, black, brown, blue or tan Andorean Kid

Natural, black, brown, blue or tan soft Cape Kid

## 4 "VEST POCKET" POUCH

The demand for a small pouch, which will hold half an ounce of tobacco and fit comfortably into a waistcoat pocket, has been answered by the "Vest-pocket" pouch. It is made of soft leather with a rubber lining and wide gusset for easy filling

Natural, black, brown, blue, tan or Andorean Kid

Natural, black, brown, blue or tan soft Cape Kid

Special prices quoted for Leather Stamping

# Dunhill Tobacco Pouches

## 5 "OVOLOK" POUCH

Its shape allows the pipe to be filled with exceptional ease, and whilst of generous capacity, it remains slim even when full

Natural, black, brown, or blue Andorean Kid

Peccary Hogskin

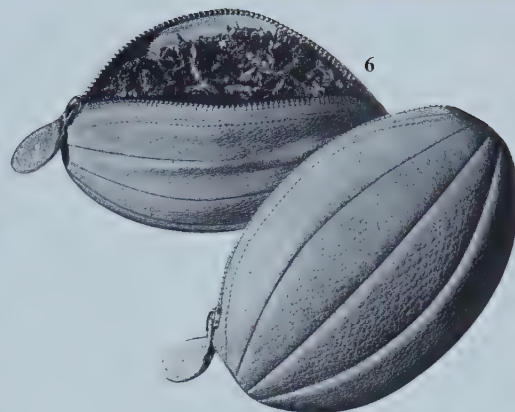

## 6 "RUGBY FOOTBALL" POUCH

The ideal sportsman's pouch; as its name implies, it is shaped like a Rugby Football

The "Zipp" fastener gives a wide opening for easy pipe filling. This pouch has an ample capacity and yet when closed it remains slim for the pocket

Light tan Kid only

## 7 "ROTATOR" POUCH

This pouch is filled at the top, but the pipe is filled from the bottom of the pouch, so that dirt cannot accumulate and waste is thereby avoided

Natural, black, brown or blue Andorean Kid

Soft Cape Kid

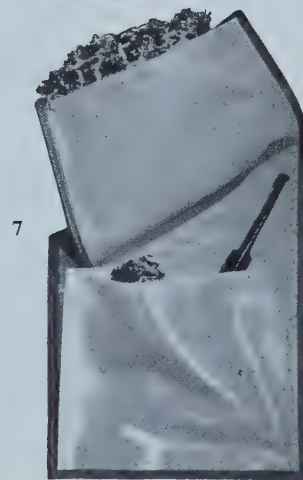

## 8 "SIDELOCK" POUCH

Similar in design to the "Vest Pocket" Pouch, but having a greater capacity. It also has a wide gusset for easy filling

Natural, black, brown or blue Andorean Kid

Soft Cape Kid

*Special prices quoted for Leather Stamping*

# Dunhill Rollagas Lighter

## THE DUNHILL "ROLLAGAS" LIGHTER

*(World patents granted or pending)*

A unique combination of science, mechanics, engineering and craftsmanship has produced the most elegant and practical Gas Lighter the world has yet seen

This Lighter is easily re-charged in a few seconds whether or not completely empty, with the Dunhill Self-sealing Multiple Refill and each Refill Tube contains a number of fillings

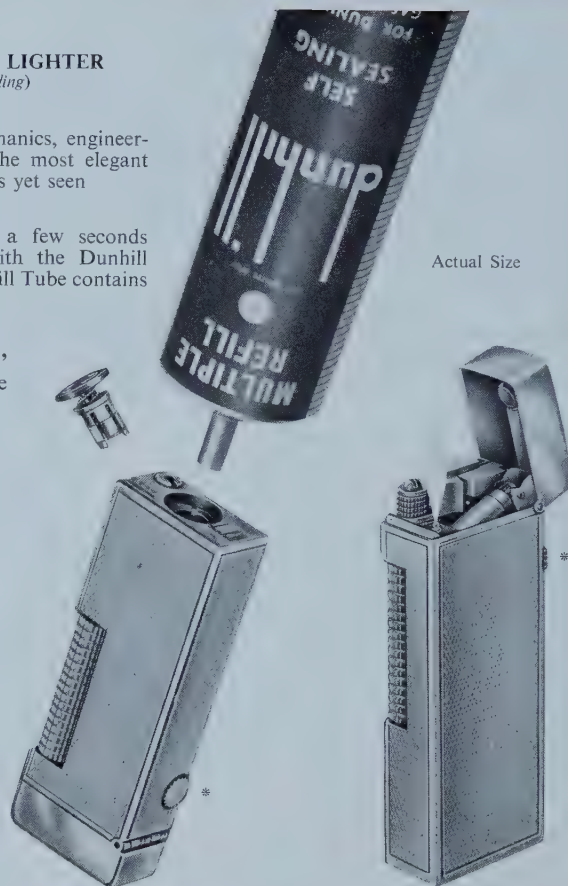

No wick is used in the "ROLLAGAS" and the size of the flame can be adjusted at will

The Patent Filler Valve cover is shown removed to illustrate the simplicity of refilling

Overseas customers for Dunhill Lighters made in Switzerland are referred to the terms stated on inside back cover

# Dunhill Pocket Lighters

The "UNIQUE" Lighter (*above*)

Pre-eminent for its simplicity of design and perfect construction this original Dunhill one-hand lighter functions unfailingly and will give many years of trouble-free service. Of large petrol capacity it is the ideal "Man's lighter"

Brillium-plated, plain and engine-turned  
Silver-plated, plain and engine-turned  
Sterling silver, engine-turned  
9-ct. gold, engine-turned

The DUNHILL "SS." Gas Lighter

Hand made in solid silver only, this beautifully finished lighter is designed in the best Dunhill tradition. Using clean butane and filled from the Dunhill Multiple Refill, its simple straightforward mechanism will ensure trouble-free service

*Each of the Lighters illustrated is supplied in an attractive Gift Box*

## Dunhill Table Lighters

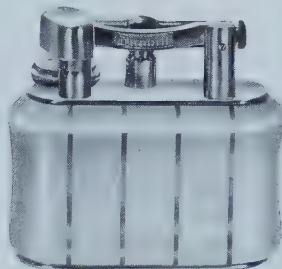

In these beautiful ornamented models, the somewhat utilitarian appearance of the Table Lighter has been transformed into a veritable objet d'art. The method of decoration used in "Aquarium" and "Aviary" subjects is an exclusive Dunhill process, the designs being seen in three dimensions and natural colour through the transparent outer casing.

The "AVIARY" Lighter

Width 4 inches

Of similar construction to the "Aquarium" Lighter but decorated with fascinating studies of brightly plumaged birds in resplendent colours. Silver-plated or Gold-plated

The "ONYX" Lighter

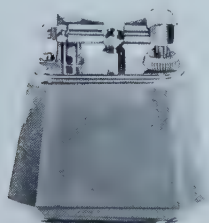

Available in plain white or plain green Onyx with silver-plated or gold-plated mechanism. The white Onyx can also be inlaid with Verdite or Canadian Blue stripes or thin "Oroton" lines as in illustration. Width 4 ins.

The "AQUARIUM" Lighter

Width 4 inches

The transparent casing reveals scenes of tropical fish in the beautiful colours of their natural surroundings. Each scene is unique and hand-painted. Silver-plated or Gold-plated

The "MINIATURE ONYX" Lighter

Available in plain white or plain green Onyx with Silver-plated or Gold-plated mechanism. Width 3 inches

The "BUMPER" Lighter

Height 3 inches

Easily operated with one hand, the mechanism automatically produces a flame when the lid is opened

Polished or Satin Brillium-plated  
Silver-plated

The "MINIATURE AQUARIUM" Lighter

Silver-plated or Gold-plated  
"Aviary" subjects also available in this size at the same prices. Width 2½ inches

*Each of the Lighters illustrated is supplied in an attractive Gift Box*

# Dunhill Table Lighters

The "JET PLANE" Lighter

Slight pressure on the nose automatically opens the cockpit cover to produce a flame

Polished Brillium-plated  
(With or without plate for engraving)

Satin Brillium-plated  
Length 6½ inches

The "TINDER PISTOL"  
Lighter

An efficient automatic table lighter in the style of an 18th century Flint and Tinder Pistol. Antique brass or oxidised silver finish  
Length 5½ inches

The "BELL" Lighter  
Height 6½ inches

This new Table Lighter has the appearance of an attractive silver hand-bell. A flick of the handle and the "Bell" produces a light. Polished Brillium plated, Silver-plated or Gold-plated

The DESK  
"RULERLITE"

Calibrated in inches and centimetres.  
12½ inches overall  
Silver-plated

The "ROMAN LAMP" Lighter

An ingenious, graceful and practical adaptation of the ancient "Lucerna"—The Roman Lamp of Imperial times—to a modern automatic Table Lighter  
Antique brass, oxidised silver or Silver plated

Each of the Lighters illustrated is supplied in an attractive Gift Box

# Dunhill Crystal Filter Holder

## THE DUNHILL "CRYSTAL FILTER" CIGARETTE HOLDER

Little introduction is needed for this extraordinarily effective filter holder which is now used all over the world. The secret lies in the amazing properties of the Dunhill "Crystal Filter" which cools and mellows the smoke, traps tars and dust without spoiling the flavour of the tobacco and thus adds infinitely to your enjoyment. Each filter lasts for 15-20 cigarettes and can be changed in a moment. The holder is available in two sizes—"SLIM" and "STANDARD." Both have the new quick-action spring ejector but the "STANDARD" is built on sturdier lines and takes a somewhat thicker filter

### Choice of "STANDARD" Models

- 5002 Silvium top, black, red, white, blue or green mouthpiece
- 5003 Black top, black mouthpiece
- 5004 Goldium top, black, red, white, blue or green mouthpiece
- 5025 Goldium Holder in velvet-lined Presentation Case with 10 filters
- 5026 Goldium Holder in velvet-lined Presentation Case with 4 extra coloured mouthpieces
- 5015 Sterling Silver, engine-turned Holder in velvet-lined Presentation Case
- 5016 9-ct. Gold plain Holder in velvet-lined Presentation Case
- 5017 9-ct. Gold, engine-turned Holder in velvet-lined Presentation Case
- 5018 18-ct. Gold, engine-turned Holder in velvet-lined Presentation Case

### "STANDARD" FILTERS (Red Cap)

In Display cartons of 24 boxes of 10 filters, or single boxes of 50 filters

The "Slim" Crystal Filter Cigarette Holder as supplied complete with 10 spare filters

"Slim" Crystal Filter Holder with Black top showing mouthpiece unscrewed for filter replacement

"Slim" Crystal Filter Holder with Goldium top showing spring cup depressed to eject cigarette end

The "Standard" Crystal Filter Cigarette Holder

### Choice of "SLIM" Models

*The Dunhill Fluid "Holdaclean" is available, see page 19*

## Dunhill Cigarette Holders

The Vulcanite used for these holders and those on page 35, is cut from the compressed sheet and is of the finest quality

- 1 and 2. **Vulcanite "Taper" Cigarette Holder.** Brillium rim and screw-lining. Will take an "Asorbal" filter. 3" or 4" long
- 3 and 4. **"Taper" Holder.** In "Bruyère," "Root" Briar or "Shell" Briar. Vulcanite mouthpiece. 3", 4" or 5" long
5. **"Trumpet" Holder.** In "Bruyère," "Root" Briar or "Shell" Briar. Vulcanite mouthpiece. 3", 4" or 5" long
6. **Vulcanite "Snug" Cigarette Holder.** Light and comfortable in the mouth. Available in black, white, red, blue or green. 1" long
- 7 and 8. **Vulcanite "Slim Trumpet" Cigarette Holder.** Brillium rim and screw-lining. 3" or 4" long

*Dunhill special "Thin" Cigarette Holder Cleaners available in packets of 72*

# Dunhill Cigar Holders

The fine grain and colour of the wood, give these holders and those shown on page 34, a handsome appearance

- 1 **Vulcanite "Taper" Cigar Holder.** 9-ct. Gold rim—meerschaum lined (*as illustrated*) 2½" or 3" long  
*Also available with Brillium screw-lining. 2½" or 3" long*
2. **"Whiff" Cigar Holder.** In Briar and Vulcanite, to take the smaller type of cigar
- 3, 4 and 6. **"Taper" Cigar Holder.** In "Bruyère," "Root" Briar or "Shell" Briar. Vulcanite mouthpiece. 2", 2½" or 3" long
5. **"Gap" Cigar Holder.** Hand cut from compressed sheet vulcanite. 1" long. This holder has the advantages of a holder without its disadvantages. With it the smoker bites on his cigar through the gap provided for the purpose
7. **"Saddle" Cigar Holder.** In "Bruyère," "Root" Briar or "Shell" Briar. Vulcanite "Saddle" mouthpiece 2½" long

*The Dunhill Fluid "Holdaclean" is available, see page 19*

# Dunhill "Torpedo" Cigarette Holder

## THE "TORPEDO" HOLDER

*The most practical of all Cigarette Holders*

The simple action of removing the Holder from its case automatically fits the cup into position for smoking. The cup has a spiral groove which firmly grips and retains any cigarette of ordinary size. Telescoping the Holder automatically ejects the cigarette-end without soiling the fingers. The Holder can be readily and conveniently cleaned without removal from the case

Gracefully designed, this novel Holder in its case occupies only a small space in the pocket or handbag. Available in black, red, white, blue or green, with either round or fishtail mouthpiece

Length  $3\frac{1}{2}$  inches, Brillium, or 9-ct. Gold cup

"	$4\frac{1}{2}$	"	"	"	"
"	$5\frac{1}{2}$	"	"	"	"

All "Torpedo" Holders will take a specially prepared filter

## The "Cigarette Smokers' Pencil"

An attractive and useful combination of the "Torpedo" cigarette holder and a propelling pencil with a compartment for spare leads. In black, with brillium-plated pocket clip, point and cigarette-holder cup

*Accessories—Holder Cleaning Fluid and Outfits available*

# *Dunhill Longlasting Lighter Fuel*

## **DUNHILL LONGLASTING LIGHTER FUEL**

The best fuel for all lighters. Dunhill Longlasting Lighter Fuel is blended to a specific formula, burns with a clear bright flame and has long-lasting properties

Longlasting Lighter Fuel is sold in a variety of packings

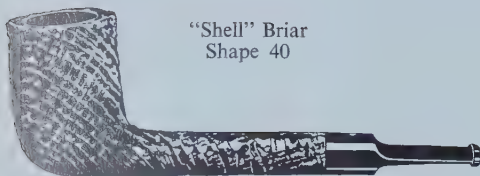

Small Capsule  
8-oz. Tin with pourer  
Fuel Dispenser

Large Capsule  
10-oz. Bottle with pourer  
Fuel Dispenser, perfumed

The Dunhill Fuel Dispenser provides clean, rapid and easy filling. By injecting a measured quantity of fuel, it avoids flooding and ensures a correctly filled lighter at all times

*For details of packings, minimum quantities, etc., see separate price list*

*Alfred W. Dunhill*

To safeguard Dunhill customers the Trade Marks "Dunhill" and "The White Spot" have been registered in most countries. Infringement of these trade marks in any Country will result in energetic action for their protection.

## **EXPORT TRADE TERMS**

**PRICES.** All are quoted nett ex London Warehouse, unless otherwise stated, but we reserve the right to alter prices without notice.

**PAYMENT.** Sight Draft Cash against Documents at your local Bank or C.O.D., where this system is in vogue.

**IMPORT LICENCE.** Please enquire whether an Import Licence is necessary. If so, quote number when ordering.

**DELIVERY.** While we have greatly increased the output of all Dunhill products, the demand still exceeds our rate of production. Please, therefore, help us and yourselves by placing your orders as far in advance as possible.

**DUNHILL LIGHTERS MADE IN SWITZERLAND.** Orders for these lighters should be sent to Alfred Dunhill Ltd., 30 Duke Street, London, S.W.1, England.

Terms: Currency control regulations vary from time to time and although payment is usually made in Swiss Francs or U.S. Dollars, we can only advise method of payment at time of receipt of order. Orders from countries in the Sterling area must be accompanied by an Import Licence if required, or a Statement from the local currency control that there is no objection to the transaction.
